Renovation Scheduled For Downtown Area

The Town of Appomattox's Downtown Renovatin Project should be underway within a few months, according to William S. Slagle, Town Manager.

Designed to improve the town's traffic flow and provide additional parking area, the project is sponsored by the Town Council and it is anticipated that it will be funded through a Department of Housing and Urban Development grant.

The plan calls for widening Harrell Street, an ally one block north of Main Street. Harrell Street will become an alternate traffic route to Main Street.

The Town Manager explained that the plans included pruchasing the old Appomattox Hotel property, raizing the hotel, and turning the area into a parking lot.

Once the project is complete, Slagle said, the door would open to many alternatives for the improvement of the downtown area, one could be turning Main Street into a pedestrian mall with an 1865 theme.

Renovations to Harrell Street will include widening and construction of sidewalks, gutters and curbing. Location of the street will not be significanly changed.

Slagle said that the idea behind the downtown revitalization scheme was to "improve the business climate and open alternate options for future project."

He said the Town Council's project has the backing of the town's business community and has good support from the Chamber of Commerce, who made this one of their prime projects.

Without the widening and parking project, Slagle said that the downtown community was "boxed in" with any development or changes confined by the railroad tracks just south of Main Street and the Main Street traffic problem.

The town council began planning for the project about three years ago. The town manager said he had "touched base" with all property owners involved in the project.

Slagle said the total cost would not be known until all property purchases were complete.

The Appomattox Town Council has also approved the complete reconstruction of Court Street, with curbs and gutters to be installed. The state highway department is scheduled to begin the project when the town council completes right-of-way acquisitions.
